EDUCATION

Aurora University, Aurora, IL

August 2024 – May 2026

Bachelor of Science in Computer Science

GPA: 4.0

- Relevant coursework: AI Ethics, Object-Oriented Programming (OOP), and Software Testing

Waubonsee Community College, Sugar Grove, IL

August 2022 – May 2024

Associate of Science in Computer Science

GPA: 3.96

WORK EXPERIENCE

PromoterMotor / NourishCap, North Webster, IN

August 2025 – December 2025

Software Engineer Intern

- Automated internal workflows leveraging JavaScript, Node.js, and FFmpeg, reducing manual work for 5+ people
- Optimized AI prompts to enhance output quality and consistency, reducing human review by 30%
- Utilized Python and BeautifulSoup to collect and format data for outreach campaigns to increase users by 6%

PROJECTS

Capstone Project - React Native, React, Nativewind, TypeScript, SQLite

- Led development of an offline-first electronic medical records (EMR) system with a 3-person Agile team
- Designed a full-stack architecture synchronizing the state of patient and inventory data in a distributed system

Morrowind Potion Helper - JavaScript, Node.js, Express, HandleBars, HTML, CSS

- Built an interactive potion recipe web app using MVC and a REST backend that is fully server-rendered
- Developed REST endpoints and an ingredient-matching algorithm to find ingredients from user-selected effects

BigNum Arithmetic Library - C++

- Engineered an arbitrary-precision BigNum library with test-driven development practices
- Implemented optimized mathematical operations and data structures for large-number computation
- Developed automated unit tests covering overflow scenarios, edge cases, and algorithm correctness

Signature Automation Tool - JavaScript, Node.js, FFmpeg

- Built a tool to batch watermark and process 50+ images, reducing manual editing time by 90%
- Implemented asynchronous processing to improve throughput and minimize overall execution time

Student Grade Calculator - React, Vite, JavaScript, CSS

- Constructed a responsive grade calculator, enabling weighted grade computation across 30+ assignments
- Configured CI/CD deployment pipeline with GitHub Actions and Azure Static Web Apps for builds and hosting

INVOLVEMENT

Computer Science Association, Aurora University, Aurora, IL

September 2025 – May 2026

Leader

- Taught game development, Godot, AI coding, and other programming concepts to 15+ people
- Established a space on GitHub for 15+ students to share interests, collaborate, and foster communication skills

TECHNICAL SKILLS

- Languages: JavaScript, TypeScript, Python, C++, Java, C#, Go, SQL, HTML, CSS
- Frameworks & Libraries: React, React Native, Node.js, Express, Tailwind CSS, Nativewind, BeautifulSoup
- Databases: MongoDB, MySQL, SQLite
- Tools & Platforms: Git/GitHub, GitHub Actions, Azure, FFmpeg, Postman, JUnit, JIRA, Codex
- Core Competencies: Full Stack Development, REST APIs, CI/CD, Agile/Scrum, OOP, Data Structures & Algorithms
